

SANDRA HERNÁNDEZ NOLASCO

Growth Systems Strategist | Growth Marketing, Automation & AI-Driven Storytelling

Mexican, based in SCZ, Bo | +591 77643717 | sandy.nolasco@hotmail.com | linkedin.com/in/sandynolasco | github.com/Sandynolasco

PROFESSIONAL SUMMARY

Growth Systems Strategist with 15+ years of experience across technology, digital transformation, and business optimization. Over the last four years I have specialized in building measurable growth systems that connect marketing, automation, AI, analytics, and storytelling to help brands scale efficiently. I combine hands-on execution (social, email, content, funnels) with a systems mindset from a background in software development, business intelligence, and performance marketing, allowing me to move fast on creative experiments while keeping an eye on what the data says. I'm a strong writer with a genuine test-and-learn approach: launch, measure, cut what doesn't work, double down on what does.

CORE COMPETENCIES

- Growth Strategy:** Growth systems design, customer journey mapping, funnel optimization, creative experimentation, influencer & partnership development
- Marketing & Acquisition:** Email marketing, social growth, Google Ads, Facebook Ads, CRO, SEO, AI search optimization, copywriting & storytelling
- Automation & AI:** n8n, Make, Mailchimp, SendGrid, Systeme.io, AI chatbots, AI-assisted workflow design, prompt engineering
- Technology:** WordPress, HTML, CSS, JavaScript, PHP
- Analytics:** GA4, Power BI, SQL Server, data-driven reporting and case-study development

PROFESSIONAL EXPERIENCE

- Founder** | Better Way Studio | SCZ, Bo (Remote — USA, MX, CA clients) 2024 – Present
- Own social and email growth end to end for client brands: creative testing, copywriting, segmentation, and reporting, iterating on what performs.
 - Turn client results into case studies and story-driven content that show measurable impact and drive new business.
 - Manage Google Ads and Facebook Ads campaigns with a conversion-first, test-and-learn approach, tracking CPL, CTR, and ROAS to reallocate budget toward what converts.
 - Design AI-powered chatbots and n8n automations for lead capture and nurturing, integrated with email platforms (Mailchimp, SendGrid, Systeme.io).
 - Front-end development (HTML, CSS, JavaScript) on WordPress/Elementor, optimizing site performance and technical SEO.
- Project Manager – Programmer** | PERCEPTIE | Bolivia / EU (Remote) 2019 – 2023
- Led UX/UI and development projects under Scrum and Design Thinking methodologies (Figma, Adobe XD).
 - Built Business Intelligence dashboards for HR, Logistics, and Sales (Power BI) that shaped go-to-market and operational decisions.
 - Designed email marketing strategies and launched advertising campaigns alongside product delivery.
- Reengineering Consultant** | KIEV SRL | SCZ, Bo 2016 – 2017
- Re-engineered the cash collection and reconciliation process for a nationwide ATM network, reducing operating losses.
 - Led service design, risk management, and quality assurance planning (SQL Server, WordPress, PMI).
- National IT Manager** | Bahiti – Lotex (Gambling & Slot Machine Operator) | La Paz, Bolivia (National) 2006 – 2012
- Led a nationwide team of 250 people (20 engineers and technicians), owning IT governance, security, and business continuity (ITIL, ISO).
 - Applied game theory to optimize slot machine profitability through strategic equipment repositioning and play-behavior analysis, generating \$150,000+ USD in additional revenue, an unusual, highly quantifiable growth-optimization result.

- Accelerated the nationwide opening of 7 gaming halls (1,000+ connected slot machines across Russia, Colombia, and Bolivia) and directed a 300+ camera surveillance program.
- Cut communications costs from \$15,000 to \$6,000 USD per month and reduced machine collection losses by 10% (\$20,000 USD), while meeting monthly collection targets of \$1M–\$1.8M USD.

Earlier Roles | GetYourBusiness, Microsoft/Cognos, Bahiti–Lotex (Service Engineer), and technical consulting in banking, pension funds, and energy | Bolivia / Chile / Mexico *1995 – 2019*

- 15+ years spanning software development, ERP/CRM implementation, and systems consulting. Configured Microsoft CRM Online and JD Edwards, migrating databases to SQL Server for banking client Banco Itaú (Chile). Additional consulting for BBVA Bancomer, Afore Garante, and Kinder Morgan. Full detail available upon request.

EDUCATION & CERTIFICATIONS

- Bachelor's Degree in Computer Science (Lic. en Informática), UPIICSA, Instituto Politécnico Nacional, Mexico City (1997)
- Diploma in Pension Fund Administration, ITESM, Mexico City (1998)
- CertiProf Scrum Foundation (SFPC), 2022 | Platzi UI Design, 2021 | PMI Project Management coursework, 2020 | Microsoft 365: Managing Identities and Requirements (70-346), 2016
